

Talk to your doctor's office about GoodRx Prescription Services

When your clinician asks where to send your prescription, request GoodRx Prescription Services (GPS). Here are some talking points.

“ Will you send my medication to GoodRx Prescription Services? This program helps make sure I can get the medication you prescribe and know what I'll pay for it. ”

How it works:

- 1 You (the clinician) ePrescribes to GoodRx: NCPDP #5755523
- 2 GoodRx Prescription Services automatically reviews my prescription, compares price options, and sends my prescription to the pharmacy that can provide the medication you prescribed at a competitive and transparent price for me.*
- 3 GoodRx Prescription Services texts me with updates on my prescription and delivers it for free directly to my door.

GoodRx Prescription Services has more information for clinicians and their staff here: [GoodRxPrescriptionServices.com](https://www.GoodRxPrescriptionServices.com)

*GoodRx Prescription Services will identify patients' available out-of-pocket cost by comparing insurance coverage, manufacturer cash programs, and/or GoodRx's coupon cash prices to determine the appropriate pharmacy to fill a patient's prescription.
